

## Sponsoring the SCEE 2006 Conference

The 6th International Conference on Scientific Computing in Electrical Engineering SCEE 2006 will be organized from 17th to 22nd September, 2006, in Sinaia, Romania. This conference, which has been organized twice before as a German conference and from 2000 as an international one, will again aim at an international audience. Our aim is to reach both mathematicians and electrical engineers, both from industry and from the academic world.

The SCEE 2006 will address the following topics.

- Computational Electromagnetics
- Circuit Simulation and Design
- Coupled Problems
- Mathematical and Computational Methods

For more information, see our web-site at <http://scee06.org>

We want to offer companies the opportunity to sponsor the SCEE 2006. There are two types of sponsoring:

1. Basic sponsoring

- Display of company name, logo and URL on web site. This information will remain on the web-site for at least until June 30, 2007.
- Display of company name, logo, URL and address in program book.
- Inclusion of company's material (folders, leaflets) in the conference bags.

2. Demonstration stand

A demonstration stand always includes basic sponsoring.
